SUBJECT: Revised Andrews Lot Line Adjustment SUB2014-00010 (1789)

JAN - 8 2015

Comments

The applicant proposes to reconfigure four existing parcels of 41.1, 38.2, 65.5, and 164 acres each to create four parcels of 54.0, 54.6, 84.7, and 115.6 acres each. The project site is located at 4490 W. Pozo Road, south of Santa Margarita. The project site is within the Rural Lands land use category and had been used for residential and ranching purposes.

The Agriculture Department considers the proposal to be **equal to the existing parcel** configuration in terms of agricultural resources. This determination is based on a comparison of the proposed and existing parcels when considering potential long-term impacts to agricultural resources and operations.

Comments are based on current departmental objectives to conserve agricultural resources and to provide for public health, safety and welfare, while mitigating negative impacts of development to agriculture.

If you have questions, please call 781-5914.
